

TMC improves the efficiency of your companys' information flow by maximizing the utilization of technology.

WHAT CAN WE DO FOR YOU?

Our focus is maximizing the utilization of the technology systems, services and equipment to enhance your efficiency and bottom line. We work with your people. We take the time to understand your organization – how it functions and how it has not worked as well as how it has worked.

Our methodology allows us to conduct an extensive audit of your current operational conditions and create a custom summary which serves as a baseline of your present environment. With the knowledge and documentation of the current environment we can begin to develop recommendations to satisfy your goals and objectives.

We have a wide base of expertise. We can provide you with a specific service or a comprehensive technology system.

- Strategic Planning
- Contract Protection
- Hardware Procurement and Negotiation
- Disaster Recovery
- Corporate Relocation
- Lan/Wan Design/Engineering
- Call Center Design and Management
- Internet Access/Interactive Design/Security
- Cable Design & Implementation
- Network Procurement and Negotiation
- Invoice Accountability and Verification
- Video Conferencing

WHAT WE DO FOR YOU.

- We work with your people, not replace them.
- We provide you an impressive ROI on our fees.
- We are strictly consultants, where we assess your needs, identify technology that can be improved, evaluate the options/opportunities, make recommendations and implement solutions.
- We facilitate the evaluation process and follow through on the outcome.
- We allow you to engage us to the level at which you feel most comfortable. *You make the decisions.*
- We recommend and prepare information in a way which allows you to make smart business decisions based on facts.
- We find the balance of best cost/value/quality service (*A vendor who puts you first*).
- We work with both your sources and vendors as well as recommend others.

WHAT WE DON'T DO.

- We do not get paid by or represent any outside vendor.
- We do not receive a percent of dollars saved.
- We do not accept any gratuities or 'finder fees' from vendors.

Contact us at Technology Management to improve the efficiency of your companys' information and technology.
