

## Standard Threshold

The following is a guide for the threshold for us to be able to help a client. The prospect only needs to meet one of these criteria.

### **2+ locations**

Multi-location or a large single location.

### **Monthly telecom spend of at least \$2,000**

This is our minimum but the more the better.

### **2+ vendors, carriers, service providers, etc.**

Sometimes a single vendor creates enough of a mess that we can save the client a large amount of money.

\*\*There are circumstances where we can help clients that don't meet one of these criteria but that would have to be decided by each client.
